| A: Place Value, Add and Subtract                                                                                 |     | B: Multiply, Divide and Fractions                                                                                                |           | C: Measure and Problem Solving                                                                        |      |
|------------------------------------------------------------------------------------------------------------------|-----|----------------------------------------------------------------------------------------------------------------------------------|-----------|-------------------------------------------------------------------------------------------------------|------|
| 1. What is the missing number?<br>0 <input type="text"/> 8 12 16                                                 | 3:1 | 11. $36 \div 4 =$                                                                                                                | 3:10      | 23. How many centimetres are in one and a half metres?                                                | 3:19 |
| 2. What is the <b>8</b> worth in this number?<br>183                                                             | 3:2 | 12. $8 \times 8 =$                                                                                                               | 3:10      |                                                                                                       |      |
| 3. Write this number in numerals.<br>two hundred and fifty                                                       | 3:3 | 13. Use $12 \times 3 = 36$ to solve:<br>$24 \times 3 =$                                                                          | 3:11      | 22. The sides of a square are 4cm.<br>What is the perimeter of the square?                            | 3:20 |
| 4. What number is labelled?<br> | 3:4 | 14. What is the missing number?<br>$7 \times \text{ } = 82 - 12$                                                                 | 3:12      |                                                                                                       |      |
| 5. Make the largest number possible using the digits 2 7 5.                                                      | 3:5 | 15. What is the missing number?<br>0.7 0.8 0.9 <input type="text"/> 1.1                                                          | 3:13      | 23. I had £1. I bought 2 cartons of drink and got 30p change. How much did each carton of drink cost? | 3:21 |
| 6. $890 + 10 =$                                                                                                  | 3:6 | 16. Circle $\frac{2}{10}$ of the marbles.<br> | 3:14      |                                                                                                       |      |
| 7. $436 - 123 =$                                                                                                 | 3:7 | 17. What is $\frac{1}{3}$ of 12?                                                                                                 | 3:15      | 24. Draw the hands to show five minutes past four o'clock                                             | 3:22 |
| 8. Circle the best <b>estimate</b> to $59 + 39$ :<br>80 90 100 110                                               | 3:8 | 18. $\frac{2}{6} = \frac{?}{3}$<br>         | 3:16      |                                                                                                       |      |
| 9. One orange costs nineteen pence. How much will three oranges cost?                                            | 3:9 | 19. Add the fractions. $\frac{2}{5} + \frac{1}{5}$                                                                               | 3:17      | 25. How many seconds are in two minutes?                                                              | 3:24 |
| 10. What is the missing number?<br><input type="text"/> - 19 = 13                                                | 3:9 | 20. Write the largest fraction. $\frac{1}{5}$ $\frac{1}{6}$ $\frac{1}{4}$ $\frac{1}{2}$                                          | 3:18      |                                                                                                       |      |
| Total (A)                                                                                                        |     | Total (B)                                                                                                                        |           | Total (C)                                                                                             |      |
