

How many questions can you answer in SIX minutes?

Year 3

Number of Questions: **45**

Testing: **3×, 6×**

$1 \times 6 = \underline{\quad}$

$3 \times 4 = \underline{\quad}$

$3 \times 9 = \underline{\quad}$

$6 \times 9 = \underline{\quad}$

$6 \times 3 = \underline{\quad}$

$5 \times 3 = \underline{\quad}$

$6 \times 7 = \underline{\quad}$

$8 \times 6 = \underline{\quad}$

$4 \times 6 = \underline{\quad}$

$3 \times 10 = \underline{\quad}$

$10 \times 6 = \underline{\quad}$

$6 \times 1 = \underline{\quad}$

$10 \times 3 = \underline{\quad}$

$3 \times 5 = \underline{\quad}$

$3 \times 6 = \underline{\quad}$

$3 \times 11 = \underline{\quad}$

$11 \times 3 = \underline{\quad}$

$1 \times 3 = \underline{\quad}$

$9 \times 6 = \underline{\quad}$

$3 \times 12 = \underline{\quad}$

$8 \times 3 = \underline{\quad}$

$3 \times 8 = \underline{\quad}$

$9 \times 3 = \underline{\quad}$

$6 \times 2 = \underline{\quad}$

$12 \times 6 = \underline{\quad}$

$11 \times 6 = \underline{\quad}$

$2 \times 6 = \underline{\quad}$

$6 \times 3 = \underline{\quad}$

$7 \times 3 = \underline{\quad}$

$6 \times 10 = \underline{\quad}$

$4 \times 3 = \underline{\quad}$

$6 \times 5 = \underline{\quad}$

$5 \times 6 = \underline{\quad}$

$12 \times 3 = \underline{\quad}$

$3 \times 3 = \underline{\quad}$

$3 \times 6 = \underline{\quad}$

$3 \times 1 = \underline{\quad}$

$2 \times 3 = \underline{\quad}$

$6 \times 4 = \underline{\quad}$

$7 \times 6 = \underline{\quad}$

$6 \times 12 = \underline{\quad}$

$6 \times 8 = \underline{\quad}$

$6 \times 11 = \underline{\quad}$

$3 \times 7 = \underline{\quad}$

$3 \times 2 = \underline{\quad}$

Year 4

Number of Questions: **45**

Testing: **9×, 11×**

$10 \times 9 = \underline{\quad}$

$11 \times 8 = \underline{\quad}$

$6 \times 9 = \underline{\quad}$

$11 \times 11 = \underline{\quad}$

$1 \times 11 = \underline{\quad}$

$9 \times 2 = \underline{\quad}$

$11 \times 7 = \underline{\quad}$

$5 \times 11 = \underline{\quad}$

$11 \times 9 = \underline{\quad}$

$11 \times 2 = \underline{\quad}$

$9 \times 11 = \underline{\quad}$

$9 \times 1 = \underline{\quad}$

$6 \times 11 = \underline{\quad}$

$11 \times 12 = \underline{\quad}$

$9 \times 10 = \underline{\quad}$

$9 \times 7 = \underline{\quad}$

$5 \times 9 = \underline{\quad}$

$3 \times 11 = \underline{\quad}$

$7 \times 11 = \underline{\quad}$

$2 \times 11 = \underline{\quad}$

$11 \times 1 = \underline{\quad}$

$7 \times 9 = \underline{\quad}$

$11 \times 10 = \underline{\quad}$

$9 \times 5 = \underline{\quad}$

$12 \times 9 = \underline{\quad}$

$8 \times 9 = \underline{\quad}$

$2 \times 9 = \underline{\quad}$

$9 \times 9 = \underline{\quad}$

$11 \times 4 = \underline{\quad}$

$11 \times 3 = \underline{\quad}$

$9 \times 6 = \underline{\quad}$

$11 \times 5 = \underline{\quad}$

$1 \times 9 = \underline{\quad}$

$10 \times 11 = \underline{\quad}$

$4 \times 11 = \underline{\quad}$

$8 \times 11 = \underline{\quad}$

$9 \times 12 = \underline{\quad}$

$9 \times 8 = \underline{\quad}$

$11 \times 6 = \underline{\quad}$

$9 \times 3 = \underline{\quad}$

$12 \times 11 = \underline{\quad}$

$3 \times 9 = \underline{\quad}$

$9 \times 11 = \underline{\quad}$

$4 \times 9 = \underline{\quad}$

$9 \times 4 = \underline{\quad}$
