

Rabbits weekly newsletter

Week commencing:

20.09.21

This week, we read the story, *The Colour Monster*, where the main character changes colour depending on how he feels. We have talked about what makes us happy, sad, scared and angry and what we can do when we experience these emotions. We have also talked about how our actions can affect how someone else feels and thought about how we can be kind friends.

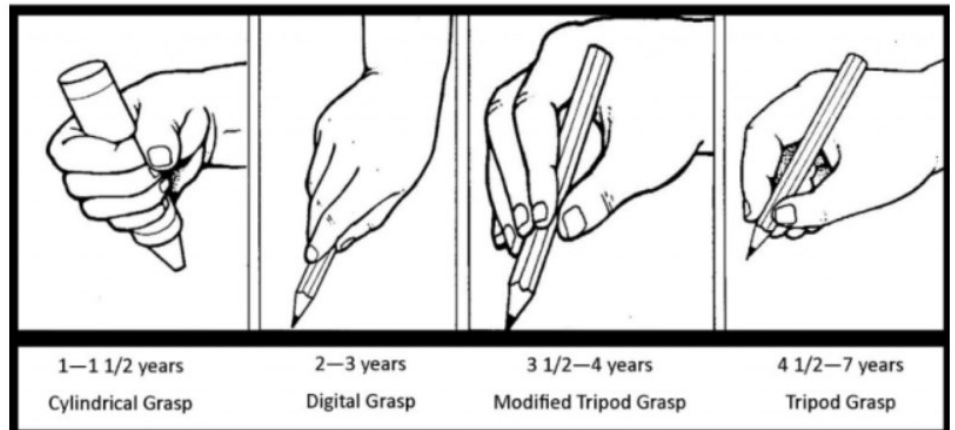

Next week:

Next week the children will continue their Reception Baseline activities with an adult. We will also be doing some very exciting things like having a skipping workshop!

Home Challenges:

Pencil Grip

In Reception, we work on moving the children towards the tripod grasp whenever they are mark making (this includes writing, drawing, colouring, using chalk etc).

Encourage your child to engage in any type of mark making using the tripod grip—it could be any activity such as practising writing their name, colouring or even scribbling.

Home challenges are helpful ideas for you in supporting your child to consolidate their learning at home. Please feel free to choose those you feel are achievable for you and share on Tapestry.
