

## **Sports Premium Report Academic Year September 2021- July 2022**

In April 2013, the Government announced new funding for Physical Education and Sport in Primary Schools, which should be used to improve the quality and breadth of PE and sport provision. Schools are free to determine how best to use this funding and are expected to publish the funding allocations they receive and details of how the funding is to be spent.

Encouraging enjoyment of sport and physical activity is part of life at Swavesey and we are all keen to build on the Olympic Legacy of enthusiasm and interest in sport.

### **Priority focus areas:**

1. The engagement of all children in regular physical activity. We recognise the contribution of PE to the health and well-being of the children. We believe that a varied PE curriculum and extra-curricular opportunities have a positive influence on the concentration, attitude and academic achievement of all our children.
2. The profile of PE and sport being raised across the school as a tool for 'Whole School Improvement'. Using Sports Leaders, as a way of promoting, working and communicating, together and with others.
3. Continue to support staff training- increase confidence, knowledge and skills of all staff in teaching PE and Sport, so that all children are engaged more actively in lessons and improve their own skills.
4. Broaden the experience and range of sports and activities offered to all pupils.
5. Increased participation in competitive sport, enabling children to experience intra -house and inter- school competition through the School Sport Partnership calendar of events.
