What are your children doing online?

To keep your children safe you need to:

- Recognise the issues
- Judge the level of risk
- Decide what you need to do to keep your child safe

"Since opportunities and risks online go hand in hand, efforts to increase opportunities may also increase risks, while efforts to reduce risks may restrict children's opportunities. ***EU Kids Online***

Safer Children in A Digital World 2008

"Children and young people need to be empowered to keep themselves safe – this isn't just about a top-down approach. Children will be children – pushing boundaries and taking risks. At a public swimming pool we have gates, put up signs, have lifeguards and shallow ends, but we also teach children how to swim."

Dr Tanya Byron
Safer children in a digital world: The report of the Byron Review

Watch out if you are talking to people on or through our Website. It is hard for either you or us to know for sure that what people say is true, or even if people are really who they say they are. You should always think twice about giving out information about yourself

Subject to any applicable Product age ratings, restrictions and Account requirements, Products are made available to individuals aged 13 or older. If you are aged 13 but under 18 years of age, you and your parent or guardian must review this Agreement and the Privacy Policy together.

Typically social networking sites…..

- Give users the ability to share personal information…photos, names, addresses, places etc
- Allow synchronous and asynchronous communication
- Allow users to develop a group of online 'trusted' friends
- May show advertising
- Some sites just have elements of social networking sites eg, Runescape, Facebook will also show where you are in real time!
- People are untruthful about their age!
