

Euro 2020 (or 2021)

This could have been England's group for the European Championships:

Group D

England

Scotland

Czech Republic

Croatia

Remember:

3 points for a win

1 point for a draw

0 points for a defeat

Game schedule

England v Croatia

Scotland v Czech Republic

England v Scotland

Czech Republic v Croatia

England v Czech Republic

Croatia v Scotland

Can you think of a set of results that would end up with all 4 teams on the same number of points after playing all of their games?

Bonus question:

Can you think of a set of results that would cause all of the teams to have exactly the same number of points and exactly the same number of goals scored and conceded after all the games are played?
