Open ended questions

1. Look at the first paragraph. Find and copy one phrase that suggests the woman was very rich.
She wore a heavy gold torc around her neck

2. The horses' nostrils and flanks were steaming as if the steeds had come a long way. Why was this a clue that the horses had travelled a long way?
Because it suggests that the horse was breathing heavily after working hard (travelling a long way)

3. Give two reasons why Conan felt doubtful about defeating the Roman army.
-They have so many soldiers fighting for them
-They have huge, devastating weapons

4. Why did Conan feel puzzled about why he was being sent to help Turi?
Because Drest said they needed weapons but Turi makes figurines and chariot fittings

5. Why did Turi believe that the carnyx would put more fear in Roman hearts than any weapon?
Possibly because he knows that a carnyx can sound intimidating and scare armies
(Any other contextually reasonable suggestion)
