

Welcome to Duolingo! www.duolingo.com

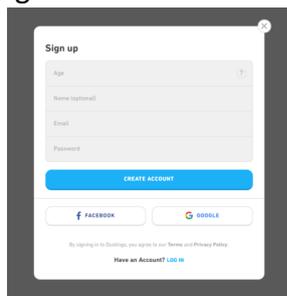

This is a great language programme, which can be used to practice your child's French and, if they wish, any other languages which take their fancy!

1. Once you enter the website, your child will complete a quick quiz to assess their level. It's all very child friendly and gives them immediate feedback .

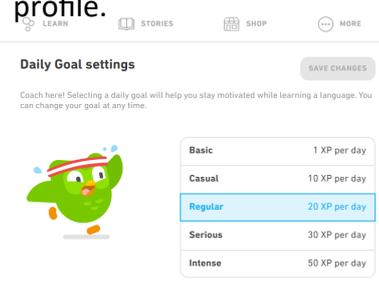

2. Once they have completed the quiz, it's time to create their profile.

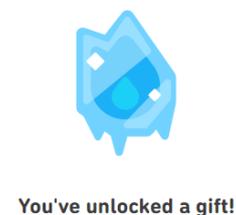

3. To ensure safety on-line, please don't use your child's real name and enter a parent's email address. You will receive a verification email to the address given.

4. Once registered, you and your child can set their goals and manage their profile.

5. Your child can earn credit for the tasks they complete and move through the programme, learning about different topics.

With this one-time streak freeze, you can miss one day of practice without losing your streak.

6. It really is that simple and all controlled by you. You do as much as suits your child.

We hope that you and you child enjoy using Duolingo. Let us know how you get on with it!

Many thanks,

Mrs Leonard and Madame Millard.
