

Block diagrams are useful to represent data in a visual way.

- 1- See if you understand how to read them by completing the 2do task 'interpreting block graphs'
- 2- Then using your own block chart from your research on Greece or using the one below made by a year 3, think of questions you could be asking about the block graph. (at least 5)

month	average max temperature
January	12
February	13
March	15
April	19
May	24
June	28
July	31
August	31
September	29
October	27
November	18
December	15
