

Story Sequencing Question

Put these events in the order in which they happen in the story, numbering them from 1 to 5. The first one has been done for you.

Kat fell through the air and into northern France.

1

She managed to land without injuring herself.

She checked her watch and realised she had less than 24 hours before blowing up the bridge.

Her parachute inflated and she started to slow down.

She had a snack and studied the map.
